Hydro Aerator

AE1300H

- 30" wide
- Self-propelled, variable speed hydro-drive controls let you feather the speed and aerate in forward and reverse
- Variable aeration density (VAD) from 8 to 48 holes per square foot in one pass – eliminates double aerating
- Independently acting, "FLEXTECH" arms are durable and forgiving for unmatched reliability
- "In-ground" steering for unmatched maneuverability, ergonomics, ease of turning, improved production, and reduced downtime and turf repair
- 390cc Honda engine

\$8,974.99

Cam-Driven Aerator

PL1800

- Ideal for smaller property aeration
- 18" wide
- Mechanical drive
- 4 tines with core spacing of 3.63" x 6"
- Reciprocating cam driven tines propel the unit forward and drive cores up to 2.75" deep
- Easy folding handles for compact transport and storage
- One piece lift-off removable cover for ease of maintenance
- 118cc Briggs engine

\$2,349.99
